2020AMV—Send back for more information

General Discussion: A conversation began in executive session that the subcommittee wished to conduct in the public session around racism and perceptions of racism in the State. How can we make changes in conversation, in the media, and in law enforcement.

How do we inspire others to have these conversations, this is a community problem, and we all have an impact on the community in how we address issues. This should be a council topic and one that is put on the agenda for deeper conversations.

The FIP committee will also address this conversation topic.

This will be an agenda item for the next Professional Regulation meeting. These topics are important to all of us and impact police decisions.
